

Dear New Resident(s),

WELCOME to BARRON PARK!***! We hope that you will find the following items in our Greeting Packet useful:

All residents receive the Barron Park Association Newsletter in Spring (if you don't receive one, let us know), but you must subscribe to receive the other issues (quarterly). A recent issue is included for you to sample, with a separate membership form to encourage you to subscribe. :)

The Palo Alto Weekly's Resource Guide Info Palo Alto (once a year) will come to you, along with the Weekly (twice a week), by mail.

The Neighborhood Watch material is something you're probably already familiar with. In Palo Alto, the Neighborhood Watch program is organized by local neighborhood organizations, with communications support from the City of Palo Alto Community Policing Division.

The map of Barron Park is often a handy thing to help you get your bearings. (Note that the current map may not reflect recent new construction changes.)

Living with Our Faults and other materials, provided by the Palo Alto Office of Emergency Services, provide tips on living in earthquake country and preparing for emergencies. (Barron Square residents will receive this separately.)

Plus there are some additional miscellaneous items about our community. And for internet users, check out <http://www.cyberstars.com/bpa> for archived newsletters, important information and links from Doug Moran, and Barron Park history articles by Doug Graham.

If you have any questions, feel free to call on us or others listed in the packet.

Welcome once again,

Gwen Luce
